### TCA DESCRIPTION

**Themes and goals:** The seminar aims to contribute to the evidence-based analysis of project results. It will do this by equipping participants with the skills to plan and implement impact assessment activities. Ultimately, this will improve the quality of the evidence base for Erasmus+. The main objectives are:

- To help beneficiaries understand the concept of impact assessment.
- To train beneficiaries so that they are able to: identify their project impact and outcomes; develop suitable indicators, and: identify suitable data sources.
- To help beneficiaries use impact evidence in their dissemination by identifying relevant audiences, stakeholders and communication mechanisms.

The seminar will include a number of practical group exercises designed to familiarise participants with (i) the stages of the Impact+ Exercise and (ii) identifying and targeting relevant stakeholders. Participants will not complete the Impact+ Exercise for their project. The seminar will provide them with the skills to facilitate a discussion and complete the Exercise with their project partners.

**Expected results:**

- Improved understanding of the concept of impact assessment.
- Improved confidence in implementing project impact assessment.
- Opportunity to meet and build a network of peers interested in impact assessment.
- Better quality project impact assessment (i.e., clearer focus, better indicators, relevant data sources, robust evidence, targeted dissemination).
